

## Job Description

Missions Mobilizers work directly with Healing Nations' international and domestic partners to aid them in developing long-term relationships. This is done by facilitating short-term trips and ongoing spiritual friendships between the two groups and managing long-term project details.

## Department & Supervisor

Missions Mobilization, Mike Bell (Executive Director)

## Relationship to the Mission of Healing Nations

The mission of Healing Nations is to glorify God by cultivating spiritual and physical flourishing through cross-cultural ministry. Missions Mobilizers, contribute to this mission directly by cultivating opportunities for groups and individuals to experience life change through long-term partnerships.

## Duties, Responsibilities, & Authority

- > Recruit churches & groups to be served by the work of Healing Nations
- > Facilitate opportunities for churches to connect over short-term international trips
- > Long-term ministry development in a cross-cultural setting
- > Logistics planning for international trips
- > Coordinate with Team Engagement to create team-related budgets
- > Ability to travel internationally several times a year
- > Occasional public speaking/teaching

## Preferred Experience

- > Working in a cross-cultural environment
- > Networking with churches and groups
- > Project management

## Strengths Required

Because of the dynamic nature of working within cross-cultural settings and because of the highly relational aspects of this role, Missions Mobilizers need to be the following:

- > Self-motivated; Organized; Flexible; Relational; Problem-solver; Patient; Reliable; Faithful; Peacemaker; Empathetic

## Skills Required

- > Familiarity with Microsoft Office 365 suite
- > Flexible in learning new systems and programs
- > Innovative in solving complex administrative & relational problems
- > Support team building and care (this is a support raised position)
- > Conflict resolution

## Job Location

Salt Lake City, UT; Grand Rapids, MI

Remote work (from home via computer and phone) should be expected
